PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student (2027) with foundational knowledge of C++, Python and JavaScript and hands-on frontend development practice in HTML, CSS and JavaScript. Completed a six-week Full Stack Web Development internship and am currently building a job-application tracking web app and a team-based placement preparation platform. Seeking a Full Stack Web Developer / Associate Developer (Fresher) role to apply and grow my web development skills on real projects.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript

Web Technologies: HTML, CSS

Developer Tools & Version Control: Git, GitHub, Visual Studio Code

Strengths: Adaptability, Teamwork, Self-Learning

PROJECTS

Job Application Tracker | HTML, CSS, JavaScript

- Developing a job-search management web app that helps candidates track applications through recruitment stages (Applied, Interview, Rejected, Selected, Offer) in one structured interface instead of scattered notes.
- Built a form-based interface capturing company, role, application date, job link and status, styled with CSS (card layout, spacing, focus states); implementing JavaScript event handling to collect each submission as a structured record for display in an application dashboard.
- Planned next: localStorage persistence, edit/delete and status updates, search and filters, and dashboard summaries by status.

AI Placement Preparation & Skill Gap Analyzer | B.Tech Minor Project, Team of 2

- Developing a placement preparation platform for students who prepare without knowing what their target roles require, comparing a student's current skills against role requirements to identify skill gaps.
- Designing a personalized preparation roadmap (technical topics, recommended projects, interview preparation) and a centralized dashboard for placement-readiness, skill gaps and roadmap progress.
- Collaborating with one teammate on system design, implementation and feature integration.

EXPERIENCE

Full Stack Web Development Intern — BeeSkilled *May 2026 – Jun 2026* | *Online*

- Completed a structured six-week Full Stack Web Development internship/training program.
- Gained practical exposure to web development concepts, development workflows and software development practices.

EDUCATION

B.Tech. in Computer Science and Engineering — Gurukula Kangri (Deemed to be University), Haridwar *2023 – 2027*
Overall CGPA: 7.84 | 6th Semester CGPA: 8.28

Class XII (CBSE, PCM) — Pt. Ram Chandra Mishra Memorial Public School, Prayagraj, Uttar Pradesh *2022 | 77.4%*

Class X (CBSE) — Pt. Ram Chandra Mishra Memorial Public School, Prayagraj, Uttar Pradesh *2020 | 85.6%*

CERTIFICATIONS & TRAINING

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle
- The Joy of Computing Using Python — NPTEL (Elite, 65%)
- AI & ML Workshop — Sofcon India Pvt. Ltd.
